Commissioner for Patents

Sir:

In response to the Notice of Allowance mailed June 4, 2004, Applicant submits the following comments with respect to the Examiner's Statement of Reasons for Allowance:

The Examiner has indicated that her reasons for allowance are that the claims are allowable over the prior art of record for teaching a crate having a removable lid hinged to the crate body as set forth. Applicant wishes to clarify that each independent claim recites "a lid detachably and pivotally secured to the first side wall." Furthermore, independent claim 1 actually recites a "pivot member sized to receive the lid edge over an outer circumference thereof without requiring deflection of the at least one engaging member."

I hereby certify that this paper, including all enclosures referred to herein, is being deposited with the United States Postal Service as first-class mail, postage pre-paid, in an envelope addressed to: Mail Stop Issue Fee, Commissioner for Patents, U.S. Patent & Trademark Office, P.O. Still further, independent claims 22 and 27 do not recite an open and closed position of the lid nor unobstructed removal of the lid as in claim 18. Instead, claim 22 recites that "when the lid moves to a second position approximately 180° from the first position, the at least one engaging member no longer obstructs the pivot member and the lid becomes detachable from the pivot member." Claim 27 recites that "when the lid moves to a second position approximately 180° from the first position, the at least one engaging member is able to move freely past the pivot member to allow the lid to become detachable from the pivot member."

Respectfully submitted,

**PHILIP C. HWANG**
